Abstract (en)

The present utility model refers to a vibrating device (1), made of smooth-textured ABS plastic, consisting of a rounded top (2) measuring 1 cm by 1.4 cm, with vibration (3) on the front side, and a USB cable input at its base (4), making it rechargeable through electricity. It features four interchangeable tips (5) made of ABS plastic that can be attached/detached to the vibrating device (1), and an elastomer cover (6) designed to be used over the smaller pointed tip. Each tip has a different shape and purpose, aiding in the treatment of dysfunctions in the perineal and pelvic region of women, men, and children aged 5 and above. The present utility model is also suitable for maintaining health and can enhance sexual pleasure for both men and women.
