Abstract (en)

[origin: WO2022218674A1] A cutting means comprising a support, a central line as a fictitious line dividing the support in a first part and a second part and a plurality of blades each having at least one cutting edge. The blades are mounted on the support, wherein the cutting edges of the blades are all oriented in a direction parallel to the central line and the blades are arranged staggered in the direction parallel to the central line and in a direction perpendicular to the central line. At least two blades in the first part and at least two blades in the second part of the support have different heights.
