Abstract (en)
[origin: WO2022180423A1] The invention relates to a lunchbox for storing, transporting and heating solid, past-like or liquid foodstuffs, particularly foodstuffs prepared for consumption. The lunchbox is intended to be easy to handle. The lunchbox has a lid and a housing that can be interconnected. The lunchbox has an electrical heating element (12), a device for power supply and for controlling the power supply and operating modes, and a sensor arrangement for controlling the temperature of the heating element (12).
