Abstract (en)
[origin: WO2022180325A1] The invention relates to a tire (1) which can be regrooved at least once and the tread of which comprises at least one regroovable groove (3). According to the invention, after regrooving, the height (HR) of said at least one regrooved groove (3) is greater than or equal to 70% of the groove height (HN3) of the at least one regroovable groove of the tire in the new state.
