Abstract (en)

[origin: WO2022184483A1] The invention relates to a method for operating a cooking appliance (1), which comprises a treatment chamber (2) with an opening (3) for filling the treatment chamber (2), a door (4) for closing the opening (3) of the treatment chamber (2), a control device (5), and a safety device (6). The safety device (6) checks the treatment chamber (2) for the presence of a living being and/or an object which could potentially disrupt operation and, if the safety device (6) detects the presence of a living being and/or an object which could potentially disrupt operation in the treatment chamber (2), the control device (6) prevents the operation of the domestic appliance (1) and/or limits the operation of the domestic appliance (1) to certain operating states. The cooking appliance (1) according to the invention comprises a treatment chamber (2) with an opening (3) for filling the treatment chamber (2), a door (4) for closing the opening (3) of the treatment chamber (2), a control device (5), and at least one safety device (6). The safety device (6) and the control device (5) are suitable and designed for carrying out the method according to the invention.
