Abstract (en)
[origin: WO2022189519A1] The invention relates to a ponytail holder which has an annular form in the closed state and is formed by an outer and an inner holding strip (4, 5), between which the hair forming the ponytail can be received, wherein the outer holding strip (4) is continuous and is provided at each of its end portions with a closure formation (6, 8) so that the end portions can be fixed to one another in the closed state, and wherein the inner holding strip (5) is connected to the outer holding strip (4) inwardly with respect to the closure formations (6, 8).
