Abstract (en)

[origin: WO2022189707A1] The invention relates to a movable loading apparatus (1) for dumping material into a container (2) comprising a wall (21). The apparatus (1) comprises a support arrangement (10) arranged to releasably support the movable loading apparatus (1) on the wall (21) of the container (2), a guiding arrangement (12) comprising a transport track (130) to the container (2); and a conveying arrangement (11) for dumping material into a container (2). The invention further relates to a method for loading a container (2) and a material transferring system (4).
