Abstract (en)

[origin: WO2022189116A1] The present invention relates to a method for handling a fan (10) of an extractor hood (1), comprising the following steps:
- determining at least the instantaneous fan speed of the fan (10), - comparing (30) at least the instantaneous fan speed with at least one - reference value, and - outputting an information on the basis of the comparison. The invention additionally relates to a system for handling the fan.
