Abstract (en)
The invention relates to a method of controlling an acoustic output device (3-5) in a road-based vehicle (15) comprising: determining an orientation (18) of the acoustic output device (3-5) with respect to the road-based vehicle (15); and controlling an acoustic output function of the acoustic output device (3-5) as a function of the orientation (18) of the acoustic output device (3-5) with respect to the road-based vehicle (15).
