Abstract (en)
[origin: WO2022195398A1] It is provided a process for making a polyurethane gel (1), comprising: a first formulation step in which the choice and dosage of at least one polyol occurs (2) defining a polyol blend (20) and isocyanate (3), one Next phase of mixing and polymerization in which the polyol blend (20) and the isocyanate (3) react and a thermosetting polyurethane gel (1) is made, a phase of expansion during polymerization.
