Abstract (en)

[origin: WO2022194672A1] The present invention relates to the use of a stabilizer composition for stabilizing polyolefin recyclates, particularly against oxidative, thermal and/or actinic degradation. The present invention further relates to a corresponding plastic molding compound, a stabilizer composition, a method for stabilizing polyolefin recyclates, a molding compound or moldings, produced from a plastic composition according to the invention and to possible uses thereof.
