Abstract (en)
[origin: WO2022194726A1] The invention relates to a shower head (1) for a water fitting (2) comprising a water inlet (3), and at least a first water outlet (4), a second water outlet (5) and a changeover valve (6) by means of which either a first water-conducting connection (7) from the water inlet (3) to the first water outlet (4) or a second water-conducting connection (8) from the water inlet (3) to the second water outlet (5) can be activated, wherein the changeover valve (6) is connected to a setting means (9) which comprises a push button (10) and which is designed such that actuation of the push button (10) makes it possible to change from the first water-conducting connection (7) to the second water-conducting connection (8) and vice versa.
