Abstract (en)

[origin: WO2022194854A1] The present disclosure relates to a disc brake arrangement for a motor vehicle, comprising a disc brake (10) with a brake disc (11) and a brake calliper (12) with a pair of brake linings (13), and a covering plate (20). The covering plate (20) is fixed to the brake calliper (12) and is arranged spaced apart from the brake disc (11), wherein the covering plate (20) is formed in such a way that a circumferential side (113) of the brake disc (11) is covered at least in sections in the circumferential direction by an inner circumferential side (23) of the covering plate. At least one magnetic strip (30) is arranged fastened to the inner circumferential side (23) of the covering plate (20).
