Abstract (en)
[origin: WO2022200108A1] The aim of the invention is to provide a functionally improved and ergonomically advantageous backrest (1) for a vehicle seat. The backrest (1) has a padding (5) which forms a support area (6) for the back of a passenger of the vehicle. The support area (6) has a stress-relief area (9) designed to relieve the spine of the passenger.
