Abstract (en)

There is provided a technique capable of suppressing an offset in a left-right direction during the docking of a dump truck with an asphalt finisher. An asphalt finisher 100 according to one embodiment of the present disclosure includes: a tractor 1; a hopper 2 installed on a front side of the tractor 1 to receive a paving material; a conveyor CV that conveys the paving material in the hopper 2 to a rear side of the tractor 1; a screw SC that spreads the paving material, which is conveyed by the conveyor CV, behind the tractor 1; a screed 3 that levels the paving material, which is spread by the screw SC, behind the screw SC; and an indicator 64 that displays information regarding an offset in a left-right direction between a dump truck 200 at a front and the asphalt finisher 100 toward the dump truck 200.
