Abstract (en)
[origin: WO202220690A1] The invention concerns a movable lighting rig for use on grass courts and other substantially plane surfaces where plants grow, where the lighting rig comprises at least a horizontal boom, at least two vertical leg structures at each end of the boom, where each leg structure is furnished with - with respect to the direction of the longitudinal booms - a transverse undercarriage comprising two swivel wheel, all together at least four, at least one in each corner. The invention is characterized i.a. in that each of the at least four swivel wheels are furnished with a hub motor and rotation devices to swing the wheels, at the movable lighting rig further comprises jackable support stands configured for relieving ground pressure from the swivel wheels.
