Abstract (en)

[origin: WO202219318A1] An article for use as or as part of a non-combustible aerosol provision system includes an aerosol generating material comprising at least one aerosol forming material, a hollow tubular member disposed downstream of the aerosol generating material, a first substantially cylindrical body disposed downstream of the hollow tubular body and a second substantially cylindrical body adjacent to and downstream of the first substantially cylindrical body, the second substantially cylindrical body being disposed at the mouth end of the article. A method of forming an article and a non-combustible aerosol provision system including the article are also provided.
