Abstract (en)
A smoking article according to an embodiment of the present disclosure includes: a medium accommodation portion filled with nicotine-containing media; a moisturizer accommodation portion disposed on one side of the medium accommodation portion and comprising an aerosol generating material; and a filter portion disposed on another side of the medium accommodation portion. A length of the moisturizer accommodation portion may be less than a length of the medium accommodation portion, a length of the filter portion may be greater than the length of the medium accommodation portion, and 70% to 100% of the length of the medium accommodation portion may be wrapped with a heater.
