Abstract (en)

[origin: WO202225398A1] The present invention concerns a low-calorie aerated confectionary product having a soft texture that is stable over time. The confectionary product according to the invention comprising erythritol, glycerol and a gelling agent, wherein the weight ratio glycerol to erythritol is in the range of 8/2 – 2/8, at least 50 wt% of the confectionary product is glycerol and erythritol and the erythritol content is at least 12 wt%. The invention further concerns the use of erythritol for the manufacture of an aerated low-calorie confectionary product, and a process for the manufacture of such products.
