Abstract (en)
[origin: WO2022223710A1] An aerosol generating article (1, 2) for use with an aerosol generating device (102) comprises a substantially planar aerosol generating substrate (14), at least one airflow channel (16) extending along the substantially planar aerosol generating substrate (14), and a wrapping member (22) surrounding the substantially planar aerosol generating substrate (14) and the at least one airflow channel (16). The at least one airflow channel (16) comprises two or more portions (16a, 16b) having different cross-sections.
