Abstract (en)

[origin: WO2022229200A1] An aerosol generation device (1) comprises : - an aerosol generation unit (2) arranged for transforming an aerosol-forming substance into an aerosol that may be inhaled by a user through successive puffs during a vaping session, - a notification unit (3) arranged for notifying information about the device (1), and - a control unit (4) arranged for causing the notification unit (3), during the vaping session, to notify the user when the aerosol generation unit (2) reaches a suitable state for the next puff.
