Abstract (en)
[origin: WO2022228906A1] The invention relates to a method for controlling a cooktop (3). The method is characterized in that same involves the following steps: detecting an object; ascertaining information on the object; acquiring an oral instruction; processing the acquired oral instruction along with at least some of the ascertained information; and controlling the cooktop (3) on the basis of the processing result. A system for controlling a cooktop (3) is also described.
