Abstract (en)

[origin: WO2022243434A2] A consumable (24) for use with an aerosol provision device (2) is described. The consumable (24) comprises a support (28), an aerosol generating material (26), and a substance to be delivered (40) that may be caused to volatilise, in which the support (28) supports the aerosol generating material (26), and the substance to be delivered (40) volatilises on heating of one or both of the support (28) or the aerosol generating material (26).
