Abstract (en)

[origin: WO2022251121A1] An aerosol-generating material having aerosol generating compositions, consumables for use within a non-combustible aerosol provision system and non-combustible aerosol provision systems. The consumables can include the aerosol-generating composition. The aerosol-generating composition can include an aerosol-generating material, wherein the aerosol-generating material includes about 1 to about 30 wt % nicotine, about 15 to about 80 wt% gelling agent, about 10 to about 60 wt% aerosol-former material, about 1 to about 30 wt% acid; and optionally filler, wherein the molar ratio of nicotine to acid is 2.2:1 or less.
