Abstract (en)  
[origin: EP4098136A1] A hood (1) for attachment to a scarf (20), the hood, in use, comprising a lower edge (2) that extends between right and left front side edges (3, 4) of a front opening and around the back of a wearer's neck, an inner surface (6) and an opposed outer surface (7), wherein the hood comprises an attachment means (8), which is provided on the inner surface and extends no lower than the lower edge, wherein the attachment means defines an opening through which the scarf can be passed for attaching the scarf to the hood, such that the scarf retains the hood on the wearer's head, and the attachment means is configured to engage the scarf adjacent each of the right and left front side edges and at an intermediate point between the right and left front side edges.
