Abstract (en)
[origin: WO2022253507A1] A refill station (100) comprises a receiving unit (102) for receiving a dispenser bottle (104) to be refilled with an active substance, scales (126) for determining weight information relative to the dispenser bottle (104) at the receiving unit (102) prior to a refill process and/or during a refill process, and a control unit (110) designed to control a refill of the dispenser bottle (104) with the active substance according to the determined weight information.
