Abstract (en)

The present invention relates to amusement ride blocks that can be played with indoors and outdoors. The amusement ride blocks 100 are each formed to be penetrated in a length direction, provided with an entrance/exit, and assembled with one another or arranged in various shapes to make three-dimensional structures to make various amusement rides. The amusement ride blocks 100 are arranged vertically in combination with one another or arranged horizontally on a floor surface to provide various games. The amusement ride blocks 100 are combined and arranged in various shapes so that the amusement ride may be constructed by reflecting creative ideas of amusement ride installers and children who are main subjects of the game.
