Abstract (en)
[origin: WO2022258744A1] The invention relates to a plug connection, comprising at least one pin contact (2) and/or at least one socket contact, which is connected to a cable and to a pin housing (3) or socket housing, wherein: the pin contacts (2) or socket contacts are sealed in the pin housing (3) or socket housing and are fastened to prevent longitudinal movement; each pin contact (2) or socket contact is assigned a sealing element (1), which surrounds the pin contact (2) or socket contact in question; each sealing element (1) is inserted in a recess of the pin housing (3) or socket housing; and the sealing elements (1) can be braced.
