Abstract (en)

A clothing treatment method and device, an operation control apparatus (10), and a storage medium. The clothing treatment method comprises: providing clothing within a drum (60) of a clothing treatment device with steam to remove wrinkles and odors from the clothing; providing the inside of the drum (60) with cold air for a first preset duration to reduce system temperature; and providing the clothing within the drum (60) with hot air to dry the clothing.
