Abstract (en)

[origin: WO2022264058A1] A composition containing a combination of an extract of *Mangifera indica*, bromelain and an extract of *Salvia officinalis* is described, which is useful for the prevention and/or treatment of inflammatory diseases and in particular osteoarticular, urogenital, dental, and gynecological inflammatory diseases in both humans and animals. The composition is particularly effective due to the synergistic action of its components.
