Abstract (en)
[origin: CN217140992U] The utility model relates to treatment equipment for treating workpieces, in particular to treatment equipment for performing immersion bath treatment on a vehicle body, which comprises an immersion bath pool and a transportation device, the transport device is designed as a rotating conveyor and by means of which workpieces can be brought into and out of the dipping bath. The processing device is simple in structure and can realize efficient workpiece processing.
