Abstract (en)

[origin: WO2022269200A1] The invention relates to a panel that comprises a first fabric (1), a second fabric (3) and a connecting structure comprising stays (4) linking the first fabric to the second fabric, wherein each stay (4) has a length at rest substantially equal to the average of the lengths at rest of the stays (4), and the first fabric (1) is plastically deformable in at least one of the main directions thereof.
