Abstract (en)

[origin: WO2023274996A1] A shaft door (8) of a lift installation (1), the shaft door comprising a door leaf (9), is equipped with an integrated operating and/or display panel (10), which is configured such that, in the event of a fire, a printed circuit board (14) of the operating and/or display panel (10) can be removed from the door leaf (9). For the removal of the printed circuit board (14), an ejecting device (10) which comprises an intumescent material (18, 19) is provided in the door leaf (9).
