Abstract (en)

[origin: WO2023274610A1] The invention relates to a coated pane comprising: - a transparent substrate (1); - a sol-gel coating (2) on a surface of the substrate (1), said sol-gel coating (2) containing a sol-gel matrix (3) which is based on metal oxide or semimetal oxide and is provided with nano inclusions (4), the nano inclusions (4) comprising a core (4a) and a shell (4b) around the core (4a), the shell (4b) being produced by means of atomic layer deposition (ALD).
