Abstract (en)

[origin: WO2023281188A1] [1] The invention belongs to the field of cosmetics, in particular for care and/or hygiene of keratin materials, preferably of the lips and/or of the skin (face and/or body), more particularly to the field of compositions such as anti-ageing, moisturising or make-up removal compositions. [2] The present invention relates to an oily droplet comprising C8/C10/succinic triglycerides and lauroyl lysine, and to the use thereof in a two-phase cosmetic composition. The invention also includes a two-phase cosmetic composition comprising an aqueous phase in the form of a gel and an oily phase in the form of oily droplets, said cosmetic composition being selected from an anti-ageing, moisturising or make-up removal composition, as well as the use of the two-phase cosmetic composition for cosmetic care and/or hygiene of keratin materials, preferably of the lips and/or of the skin (face and/or body), as well as a cosmetic method for care and/or hygiene of keratin materials, preferably of the lips and/or of the skin (face and/or body). Finally, the invention comprises a method for manufacturing the two-phase cosmetic composition according to the invention.
