Abstract (en)

[origin: WO2023281224A1] The present invention relates to a composition and to the use thereof for protecting against ultraviolet solar radiation. In particular, the invention relates to a composition comprising: - at least one mycosporine-like amino acid, referred to as "MAA"; - at least two organic screening agents chosen from UVB organic screening agents and/or broad-spectrum organic screening agents which absorb both in the UVB range and the UVA range; - at least one UVA organic screening agent.
