Abstract (en)  
[origin: WO2023281430A1] The present invention relates to a complex between at least one lactoferrin and/or a hydrolyzate thereof with at least one pullulan, and a composition comprising said complex and at least one physiologically acceptable excipient, for oral use or for topical use. The complex has high stability and bioavailability, so that it exerts a bacteriostatic, virustatic and/or antioxidant action that is effective and long-lasting. It can have a variety of uses, in particular in the prevention or treatment of : pathologies of dental apparatus; viral and/or bacterial infections of nasal, oral and/or ocular mucous membranes; inflammations of urogenital system; intestinal dysmicrobialism; skin lesions, in particular sores, ulcers or skin erosions.
