Abstract (en)

[origin: WO2023283601A1] The present disclosure provides methods of identifying protein components for use in a vaccine against an intracellular pathogen, such as HSV-1, HSV-2, or SARS-CoV-2, as well as methods of manufacturing and using vaccine compositions comprising the protein components. The disclosure also provides vaccines produced according to these methods, including HSV-2 vaccines, and related methods of use to treat or prevent HSV-2 infection.
