Abstract (en)

[origin: WO2023280352A1] The aim of the invention is to provide a treatment system for treating workpieces, in particular for carrying out a fluid treatment of vehicle bodies, which has a simple design and allows an efficient treatment of workpieces. According to the invention, the treatment system comprises the following: an enclosure surrounding a treatment space; a conveying device for conveying the workpieces; and an application device for applying fluid to the workpieces.
