Abstract (en)
[origin: WO2023099552A1] The invention relates to a punching unit (900) having a device for changing (950) a punching cylinder (901), the punching unit (900) comprising at least one punching cylinder (901) and at least one counter punching cylinder (902), wherein the punching cylinder (901) is arranged in a punching position (981) for punching, wherein the at least one punching cylinder (901) can be replaced with at least one further punching cylinder (903) by means of the changing device (950). The invention also relates to a method for changing a punching cylinder (901) of a punching unit (900).
