Abstract (en)

[origin: WO2023002193A1] The present invention relates to aerosol generation for delivery of constituents, derivatives or extracts of cannabis. An aerosol-generating composition is provided comprising a first aerosol-generating material comprising an active substance which is a constituent, derivative or extract of cannabis and a gelling agent, and a second aerosol-generating material comprising a different active substance and a gelling agent. Products including the compositions and methods of preparing the compositions are also provided.
