Abstract (en)
[origin: WO2023002023A1] The present invention relates to a method of forming an aerosol-generating material; aerosol-generating materials obtained by the method; articles for use within a non-combustible aerosol provision system; and non-combustible aerosol provision systems comprising the article. The method comprises: providing a slurry comprising gelling agent, aerosol-forming agent, solvent and any optional further components of the aerosol-generating material; adding the constituent, derivative or extract of cannabis to the slurry; forming a layer of the slurry; and drying the slurry to form the aerosol-generating material.
