Abstract (en)
[origin: WO2023002020A1] The present invention relates to methods of forming an aerosol-generating material; aerosol-generating materials obtainable by the method; aerosol-generating compositions comprising the aerosol-generating material; articles for use within a non-combustible aerosol provision system comprising the aerosol-generating composition; and non-combustible aerosol provision systems. The methods comprise: providing a slurry comprising gelling agent, aerosol-former and a solvent; forming a layer of the slurry; drying the slurry; and applying an active or flavourant during and/or after the drying step.
