Abstract (en)
[origin: WO2023004092A1] The present invention relates to an aerosol-generating material for use in aerosol generation; an aerosol-generating composition comprising the aerosol generating material; a consumable for use in a non-combustible aerosol provision device, the consumable comprising the aerosol-generating composition; and non-combustible aerosol provision systems. The aerosol-generating material comprises: about 15 to about 50 wt% constituent, derivative or extract of cannabis; about 10 to about 50 wt% aerosol-former material; about 15 to about 60 wt% gelling agent; and optionally filler.
