Abstract (en)

[origin: WO2023000005A1] The invention relates to a drawer pull-out guide (1) for movably supporting a drawer on a furniture body, comprising: - at least one body rail (2) to be secured to the furniture body, and - at least one drawer rail (3) which is to be connected to the drawer and which is movably mounted relative to the at least one body rail (2) in a longitudinal direction (4). At least one of the rails has at least one profiled section (9), which is made of at least one flat sheet metal (6) and which comprises two longitudinal edges (7) running parallel to each other, in a cross-section (5) that is normal to the longitudinal direction (4), wherein - at least one embossing (10) which extends at least partly over at least two profiled section (9) lateral surfaces (8) arranged substantially orthogonally to each other is provided in order to reinforce the profiled section (9) of the at least one rail, the lateral surfaces (8) are arranged in the longitudinal direction (4), and the at least one embossing (10) is arranged substantially orthogonally to the longitudinal direction (4). The at least one embossing (10) faces in the direction of an outer region (12) of the at least one rail and/or the at least one rail is designed as a storage rail (3) and/or at least two embossings (10) are provided, said at least two embossings (10) facing in the direction of an inner region (11) and in the direction of an outer region (12) of the at least one rail in an alternating manner.
