Abstract (en)

[origin: WO2023001599A1] The invention relates to a roll-changing device (1) for changing the working and/or intermediate rolls (2) of a roll stand, the roll-changing device (1) comprising a roll-changing carriage (3) with which rolls (2) to be changed out or in can be transported. According to the invention, in order to develop such a roll-changing device such that it is possible to ensure simpler and safer loading and unloading of a roll-changing carriage, the roll-changing device (1) comprises a cartridge (4) which can be detachably mounted in the roll-changing carriage (3), wherein the cartridge (4) is provided with receiving spaces (5) for the rolls (2).
