Abstract (en)
[origin: WO2023030912A1] The invention relates to a method (100) for adapting a capacity of a resource provided in a computer cloud (16). A predefined event plan is taken as a basis here for forecasting (120) a future demand for the capacity of the resource by way of a data processing device (12). The capacity of the resource is then adapted (140, 160) on the basis of the forecast demand for the capacity of the resource.
