Abstract (en)

A post configured to realize, together with other posts (20) and a plurality of panels (7), a fence (5). The panels comprise a plurality of horizontal (7a) and vertical (7b) elements in wire nets and the posts comprise a rod (24) of a certain length and are configured to be mounted, in use, in a vertical direction. The posts also comprise, along the length of the rod (24), at least two groups of holes (25). Each group of holes comprises holes (25) of predetermined diameter and position corresponding to the position of the horizontal elements (7a) of each panel (7). The invention also concerns a fence (5), obtained with the posts and panels, as described, and a method for making the fence.
