Abstract (en)

[origin: WO2023020652A1] The invention relates to a drying apparatus (100, 200) for drying containers (1) having at least one container property, the drying apparatus (100, 200) comprising a cooling portion (142, 230) in which the containers (1) can be cooled, a fluid flow device (144, 218) that is arranged and designed to apply a fluid flow to the containers (1) within the cooling portion (142, 230), and a control device (140, 222) that is designed to control the fluid flow device (144, 218) according to the at least one container property in such a way that the containers (1) are cooled by the fluid flow.
