Abstract (en)
[origin: WO2023027405A1] A cartridge and an aerosol generating device including the same are provided. The cartridge includes: A cartridge comprising: first chamber configured to store a liquid; second chamber including an inlet and an outlet; wick disposed at the second chamber to be in communication with the first chamber; and heater configured to heat the wick, wherein the second chamber comprises a curved surface defining at least a portion thereof between the inlet and the outlet.
